Career Objective:

Seeking for a challenging career in information technology and management in a promising organization where the extensive experience may further develop and is constructive for the organization and me.

Educational Profile:

Doctor Of Philosphy (Ph.D.) in Information Technology:

Ph.D. thesis submitted on topic "Personalized Recommendation Based on User's Information Centered ERP Systems" from Barkatullah University Bhopal in 2014.

Academic Qualifications:

Course	Year of passing	Board/ University
M.Sc. IT	2004-2005	Kalinga University
B.Sc. IT	2002-2003	Bundelkhand University
H.S.C.	1998-1999	M.S.B.S.H.S. Latur Division
S.S.C.	1996-97	M.S.B.S.H.S. Latur Division

Research and Publications:

Conferences:

- Security Protocols Developed for Cloud Computing, I2CT IEEE Conference, Jan. 2018
- Enhancement Of 3g To 5g With Adopted Cloud Computing Approach For Wireless Communication network to be communicated International Conference on Recent Innovations in Signal Processing and Embedded Systems (RISE)
- Secure Protocols for Developed Cloud Computing, to be communicated to 2017 International Conference on Recent Innovations in Signal Processing and Embedded Systems (RISE)
- A novel approach for generating association rules pattern matching using improved Apriori with regression technique, ICICICT-2017
- K-Means and MTree prediction cluster model for diabetes disease with regression technique, ICICICT-2017

Publications in Journals:

- Published a research paper on Hybrid Rainfall prediction Methodology: A Blending of Artificial Neural Network and Fuzzy Inference System
- Published a research paper on “Prediction of Electricity in Indian Electricity Power System through Artificial Neural Networks”

Experience Highlights:

- Working at College of Science and Arts and Community College King Khalid University Mohayel Assir since April 2010 as a lecturer and dealing with different subjects at baccalaureate and diploma level. Subjects taught (Information Security and E-Security, Computer Ethics, Network Security, Computer Networks). Other than teaching I have been part of different departmental to university level committees and activities for the college.
 - Department Registrar
 - Head of Scheduling and registration committee for the college
 - Worked as a member in Quality Assurance
 - Have been Co coordinator for Training and Academic Unit
 - Have been counseling the students

- Worked as a Network Technician (Vocational Instructor) in Nizwa College of Technology, Oman. This is the organization working under Ministry of Manpower Sultanate Of Oman. I also held the charge to take care of the complete hardware and networking needs of one department which had more than 100 computers setup comprising of two labs and staff systems.
- Worked as a Class faculty & Lab Administrator at Rajiv Gandhi College of Information Technology & Management affiliated to Swami Ramanand Teerth Marathwada University Nanded, Maharashtra. I was responsible for training the under graduate students of BCA for different subject like. Fundamentals of Computers, Operating Systems, Office Automation, C, C++, Information Technology, E-Commerce, Networking Essentials, Networking in Windows, WAN Technologies and CCNA curriculum further I also had the responsibility to manage and administrate the computer Lab of the college having more than 150 computers. I have also been the Head of Dept. of B.C.A. I worked on this post from July 2004 till December 2008.

- I also worked as a network and security administrator and trainer for a software development and a computer training center called Softcore Computers, Nanded. Where I was responsible for designing and managing the computers network and security systems of the Lab. Further I used to maintain the WAN connectivity of the same institution which is having two more branches. I used to deal with routers and manageable switches here. Further I also conducted the for classes CCNA 640-802 paper. I was also responsible for conducting online exams of the same institution. I was working in this organization since year 2000 as a part time employee. I have also conducted the classes in the same organization for Tally Accounting Packages

- I also worked as free a lancer in Nanded Maharashtra where I used to take the contracts for creating and managing Local Area Networks for different private companies and firms.

Career Highlights:

- Overall 12 years of experience in teaching in Computer Networks and Security
- Sound Technical knowledge of Computer Software, hardware and Networking.
- Good Communication (oral and written) and Presentation skills.
- Ability to lead a group of people.
- Reasonable Research skills.

Personal Details:

Name : Mohammed Burhanur Rehman
Father's Name : Mohammed Yaqub
Date of Birth : 26th September 1982
Religion : Islam
Nationality : Indian
Gender : Male
Passport Number : J5533965
Passport Expiry : 30/10/2021
Marital Status : Married
Dependents : Three
Blood Group : B Negative

Additional Qualifications:

- 1) Certificate course in e-Learning (Blackboard) from King Khalid University KSA
- 2) Cisco Certified Network Associate having Cisco ID CSC011511737
- 3) Diploma Course in Computer Programming from Softcore Computers Nanded.
- 4) Certificate Course in Computer Accounting from Tally India Pvt. Ltd. Bangalore.
- 5) Holding a certificate from ICB London as a Level 4 Computer Accountant
- 6) Certificate Course in Computer Hardware & Networking from G.R. Electronics Nanded.

Declaration: I hereby declare that the details provided above are true as per my knowledge till date.
